

Wattstopper DLM Segment Network Wire, 2000 Spool

Part No. LM-MSTP-S2000

This type of wire connects low voltage devices (i.e., switches, occupancy sensors, photocells) to panels. It is #20 AWG wire that meets UL and NEC standards for Class 2 applications. Plenum rated wire meets plenum and riser requirements. Several types of multiconductor low voltage wires are available for standard, pilot, locator, and multilevel switching or for connecting photocells to the LI control panels. This wire can also be used to wire relays remotely

Features & Benefits

Data communications wire provides communications between panels and signaling devices

Distance markings in foot increments

Color-coded for streamlined installation

Custom cut to specified lengths

Low voltage component wire connects switches, sensors, and other low voltage devices to panels

Specifications

General Info

Product Line	Wattstopper	Color	Green
UPC Number	754182938247	Country Of Origin	United States
Additional Information			

Additional Information

Product Environmental Profile Yes
