Shading Systems
**6-inch Wiring Adapter**
Part No. 6500092

Legrand Shading Systems' Wiring Adapter allows for pre-wired cabling to easily connect to QIS shades, resulting in simple and convenient access to Legrand Shading Systems shades without rewiring your entire system. This 6" adapter allows for the translation of communication and power without the added expense of proprietary cabling.

## Features & Benefits

One thermostat for all applications - works with single-stage, heat pump, multi-stage and control of humidifier and dehumidifier systems.

Communicates with InFusion controller, Vantage touchscreens, and mobile apps for remote operation and feedback

Allows for temporary override of Vantage System without altering initial programming

On-board relative humidity sensor configurable to control humidifier and dehumidifier

Direct connection of outdoor or indoor sensor

Automatic set points controlled through the Vantage System
