

radiant Collection
Discontinued - radiant® Digital Audio Local Source Input, Nickel
Part No. AU7008NI

The radiant collection is a step up from the standard with simple, classic options in wiring devices, home automation controls and screwless wall plates that complement today's homes. The Digital Audio Local Source Input enables use of an analog source, such as a cable box, game system, or CD player, within a single room of a Digital Audio System. Any source connected to this input will only be available locally within the room where it is connected. The AU7008 can be selected through the Digital Audio Amplified Keypad or by using the Legrand Digital Audio App. Up to four AU7008 modules can be used per zone when wired in a series from the Digital Audio Keypad. radiant Screwless Wall Plate not included. Check out the Digital Audio mobile app.
