

Wattstopper **PIR Ceiling Occupancy Sensor 120 linear sq. ft. 24 VDC, USA** Part No. CX-100-3-U

Wattstopper's CX-100 Series Passive Infrared (PIR) Ceiling/Wall Sensors detect occupancy to control lighting in a wide variety of applications. These sensors provide superior coverage and performance with great energy savings.

## Features & Benefits

Turns lights on and off based on occupancy		User-adjustable	User-adjustable time delay and sensitivity	
ASIC technology reduces components and provides greater reliability Choice of four coverage patterns				
Built-in light level sensor		Isolated relay for systems	Isolated relay for use with HVAC or other control systems	
Automatic or manual-on operation when used with a BZ-150 Power Pack				
Specifications				
General Info				
Product Line	Wattstopper	UPC Number	754182911240	
Country Of Origin	United States			
Technical Information				
Sensor Type	Occupancy
