Llegrand[®]

HI-106 The FM-105 High Frequency Occupancy Sensor is a line voltage sensor that turns lighting on and off based on occupancy, and can hold lights off when sufficient daylight is available. It detects motion via high frequency electromagnetic waves and the Doppler principle. Because it can detect motion through many dense materials other than metal, the FM-105 can be installed behind fixture lenses and hidden from view.

Features & Benefits

Adjustable time delay	Adjustable detection sensitivity
Hold-off daylighting control	Mounting bracket for flexible installation
Line voltage occupancy sensor	Mounts behind fixture lens hidden from view
Specifications	

Wattstopper

Part No. FM-105

Microwave Occupancy Sensor

General Info

Product Line	Wattstopper	UPC Number	754182924004
Country Of Origin	China		
Dimensions			
Product Width US	2.0 in	Product Weight US	0.2 lb
Product Volume US	7.59 cu in	Product Depth US	2.25 in
Product Height US	1.5 in		
Additional Information			
RoHS Conformant	Yes	Security	Yes
Technical Information			
Sensor Type	Daylight, Occupancy
