

LMDW-100 Series Digital Dual Technology Wall Switch Occupancy Sensors use PIR and ultrasonic technology to detect occupancy for energy-efficient control of lighting and plug loads. They also include one or two switch buttons for manual control of selected loads, and are part of a Wattstopper Digital Lighting Management (DLM) system.

Features & Benefits

2-button Digital Dual Technology Wall Switch Occupancy Sensor	LMDW-100 Series Digital Dual Technology Wall Switch Occupancy Sensors use PIR and ultrasonic technology to detect occupancy for energy-efficient control of lighting and plug loads. They also include one or two switch buttons for manual control of selected loads, and are part of a Wattstopper Digital Lighting Management (DLM) system.
Dual Technology sensor with On/Off button(s) to switch selected load(s)	Component of Digital Lighting Management integrated control system
Quick access to Push n' Learn for system personalization	Digital sensor with LCD display and programming pushbuttons
IR transceiver for wireless configuration and remote control	Plug to other components using Cat 5e cables with RJ45 connectors eliminating wiring errors

Specifications

General Info

Color	Green
UPC Number	754182945993
Countries Of Origin	China
Product Line	Wattstopper
Application Sector	Commercial
Type	Occupancy Sensor
Standard	UL

Additional Information

RoHS Conformant	Yes
Product Has Potential to Contribute to LEED	No
