Wattstopper

Discontinued - DLM Color Control Scene Switch, Ivory V3

Part No. LMSW-105-CCT-I

The LMSW-105-CCT DLM Color Control Preset Switch from Wattstopper is a low voltage Correlated Color Temperature (CCT) controller that sets and recalls preset lighting color temperature values and raises and lowers CCT levels allowing building occupants to quickly and easily adjust fixtures that are enabled for tunable light with Blanco and Araya logic modules (also from Wattstopper). The LMSW-105-CCT is a Plug n' Go™ component within the Digital Lighting Management (DLM) system which means it automatically binds to any CCT load in a room while communicating with all other DLM devices to create a default sequence of operation as soon as it is plugged into a network.

Features & Benefits

- Sleek single gang device fits decorator wall plates
- Four buttons to set and recall preset lighting color temperature levels
- LED status indicators
- Master raise/lower paddle adjusts color temperature levels between cool light (higher CCT range), and warm light (lower CCT range)
- Hidden configuration button for easy access to Push n' Learn mode
