

..

□

Distribute, manage, and control power to connected equipment, enabling load monitoring, individual outlet power cycling, and power sequencing. This control can be accessed locally or remotely, multiplying the reach and ability of IT staff and caretakers. A single portal view provides visibility and control of power usage and available capacity, which simplifies the maintenance responsibilities of taxed IT departments.

## Specifications

### General Info

|                    |              |                   |                           |
|--------------------|--------------|-------------------|---------------------------|
| Product Line       | Legrand      | Color             | Black                     |
| UPC Number         | 662875015291 | Country Of Origin | Taiwan, Province Of China |
| Application Sector | Commercial   |                   |                           |

### Additional Information

|                 |     |
|-----------------|-----|
| RoHS Conformant | Yes |
