

Wattstopper LP8 Peanut Panel Part No. LP8

Wattstopper's LP8 Peanut Lighting Control Panels provide simple, effective zone-based control of exterior and interior lighting in small applications. Panels control up to eight channels or zones of lighting. Zones respond to control signals from the system clock (or other signalling device) to turn lighting on and off. LP8 Panels ship pre-assembled in easy-to-install compact packages available for surface and flush mounting. They consist of relays, a system clock, panel intelligence, power supply, tub and cover. The standard enclosure is NEMA 1-rated.

Features & Benefits

Simple and effective interior and exterior lighting control

Controls up to twelve single-pole lighting circuits

Easy user interface with on-screen help

System clock provides time scheduled or astronomic control

Compatible with AS-100 Automatic Control Switches for local override control
