

Wattstopper HID fixture reflector sensor mounting bracket

Part No. MB-2

The MB-2 is a J-Plate HID mounting bracket used to install occupancy sensors in a variety of settings. The bracket includes an adjustable plate that allows sensor rtation to achieve the desired angle for optimal coverage. The bracket also includes a built-in bubble level that afford the installer reliable guides to ensure the bracket is correctly positioned before adjusting the sensor. The MB-2 is constructed of aluminum with a clear powder coating finish. With the MB-2, sensors can be attached directly to High Intensity Discharge (HID) fixtures, mounting to the bottom rim of the HID reflector bell and secured to the rim with three clamping screws. Sensors recommended for use with the MB-2 bracket include the CX, CI and HB sensors. The MB-2 includes a J-shaped bracket and a sensor mounting plate. The MB-2 also comes with extension wires that can be used, if needed, to connect the attached sensor to the DM HID controller.

Features & Benefits

D		
Brushed	aluminum	construction

HID fixture bracket (MB-2)

Compatible with most Wattstopper occupancy sensors

Mounting plates adjustable to preset angles

Multiple mounting options with MB-1

Built-in bubble level for accurate installation
