

**Wattstopper**  
**Wattstopper PLUS Wireless Test Tool, Black**  
Part No. BCS\_WA\_EN-WTT-ZB

The wiring test tool is a key-fob-sized device designed for installers and contractors to test the wiring of Wattstopper PLUS wireless devices. It helps lighting manufacturers validate installing integrated load controllers like the CLM and SensiLUM at the end of a manufacturing line before shipping to the site. In addition, it helps electrical contractors to test devices like WCM, WALC, and WSLC at a site.

## Features & Benefits

The wiring test tool allows an installer to test the installation of their wireless devices by sending a command to toggle and dim the lighting nearby

The wiring test tool can control devices at two different ranges (Normal and High), which can be used depending on the type of installation at the site

It helps electrical contractors to test devices like WCM, WALC, and WSLC at a site.

## Specifications

### General Info

Product Line	Wattstopper	Color	Black
UPC Number	840356700175	Country Of Origin	Canada
Application Sector	Commercial	Warranty Type	5-Year
Type	Tester		

### Dimensions

Product Width US	1.5 in	Product Weight US	0.06 lb
Product Depth US	2.84 in	Product Height US	0.58 in

### Technical Information

Output Voltage	48 VDC	Frequency Band	2.4 GHz
----------------	--------	----------------	---------

---

Wireless Range	Zigbee, up to 30 ft	Indicator	Transmit LED
Input Voltage	3 VDC	Indoor/Outdoor	Indoor
Antenna Pattern	Omni-directional
