

Non-Metallic Cord Connectors are constructed of a durable, nylon material which offers excellent corrosion resistance, is lightweight, durable and ideal for use in damp environments. Nylon Cord Connectors are ideally suited for use in applications with moisture or washdowns and they provide an environmental seal against dirt, coolants, as well as other chemicals.

### Features & Benefits

Heavy duty Nylon body is resistant to impact and corrosion	Rubber grommet provides a liquid-tight seal and reduces cord pull-out while resisting chemicals
Available in straight, 90°, and underground feed styles	Color coded grommets make for easy identification and ease of installation
Rugged construction suitable for various industrial applications such as MRO, food processing, water/waste water, marine, pulp & paper, and petrochemical	

### Specifications

General Info			
Product Line	Pass & Seymour	UPC Number	785007060027
Country Of Origin	Mexico	Application Sector	Commercial/Industrial
Standard	UL Listed, RoHS		
Technical Information			
Maximum Cable Range	0.562 in	Minimum Cable Range	0.687 in
